

# relaxn<sup>®</sup> IN-LINE FUEL FILTER

**NEW**

Introducing the new Relaxn In-Line Fuel Filter for outboard engines, one of the most over looked components in a fuel system. A clogged filter can result in reduced fuel flow, engine performance or even engine damage.

The In-Line Fuel Filter is suitable for 2 stroke and 4 stroke engines. The 10 micron filter has the ability to filter unseen materials from liquids making it a necessity for your outboard.

## 10 Micron Filtration

10 micron filters are able to filter unseen materials from liquid and will protect the pump from dirt and other particles.

## Suits 2 Stroke & 4 Stroke Outboard Engines

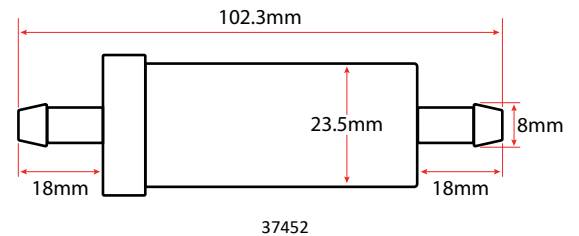

Will not impede on fuel/oil ratio.

## Quick-view Fuel Inspection Vile

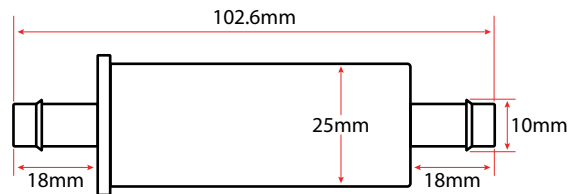

The opaque housing allows for a quick inspection of visible dirt/contamination.

## Disposable In-line Installation

It is recommended to replace the filter every 80 hours or 12 months.
