

---

Relaxn seats are more than just seats, they are an expression of style, comfort and quality. All of Relaxn seats are manufactured using the highest quality marine-grade products. Allowing Relaxn to develop and deliver the best possible seats.

Heavy-duty UV stabilised vinyl and stitching is utilised in every seat to increase longevity and to enable the seats to withstand the marine environment. Plush high-density foam padding provides ergonomic support and extra comfort during periods of extended use. Relaxn seats are built tough.

When installing your new seat, we recommend fastening using the bolts provided in the base of the chair. These bolts are located in the pattern underneath the seat that will provide the strongest mounting points to spread the load. If you do not have a Seat mount that has this mounting pattern we recommend purchasing one to adapt. Fasten by hand only, tighten until spring washer is flat, do not over tighten. Warranty will not cover incorrect installation of seats.

## RELAXN SEAT CARE

After use, hand wash with warm water. Dry in the shade and use a protective seat cover when not in use. Relaxn recommends Arco Vinyl and Leather Cleaner/Restorer to further protect your seat (Part#: 322040-ARCO).

Seats which include a thigh-rise are designed as a lean-to rest while the thigh-rise is up. The thigh-rise is not intended as a booster seat to be sat on. Incorrect use will void the warranty.

LEAN-TO REST ONLY

DO NOT SIT ON THIGH-RISE

---

## RELAXN GUARANTEE

This product is guaranteed against defects in materials and workmanship. This guarantee does not cover damage caused by improper use or care. Although Relaxn utilises the highest grade products, the natural breakdown of materials and components which may occur after an extended period is not covered.

*12 Month Warranty*
